Fun game, very scary.. Nice game for a few hours!. For nostalgia purposes it's alright, I can't change the settings though..

at all:9V10. Do not recommend at the moment. Early access I know but If you are a WWII buff like myself this is a game for you. Its got a great concept but with only 4 people IN THE WORLD playing at any one time its hard to really get into it now. Later in time ill dive back in.. Okay, first, play the game before you buy the soundtrack. Personally, I found the "music", and I use that word loosely, totally annoying to the point that I said to myself, "if this doesn't get better, I'll play with speakers turned off." Secondly, when the game starts, I was wandering around aimlessly, and the devil was whispering repeatedly something intelligible and after wandering through the whole first floor\dungeon\basement, I saw two blobs that I guess were silhouettes, but I could not figure out how to interact with them or battle. I deleted the game from my hard drive\PC and marked the category as "don't like", so that when I get a new PC someday, I don't waste time downloading this again.. Amazing Lobby Experience

10/10. How did this game die it's a really great game.. Cool game, kinda dead tho.

Devs are slow at making new content and fixing bugs.

Could use alot more work on more maps, monsters and to make it easier for the monster to find the humans.

Really cool game tho and shows alot of potential

I've been wanting this game before it could be bought. Now that I've played it, I'll have to be honest... it's EXACTLY what I hoped for! I love the gameplay: simple, yet fun. It's extremely tough, and you better bet that you'll begin to rage at how mental RunGunJumpGun can get. Even with how crazy the idea and game itself are, it's amazingly fun to play, and the silly story that goes on as you play just adds to it. 10/10. I bought this game as a joke because I love osu!mania and Stepmania and Thought it would be funny to buy this game but it was so bad that it wasn't even worth the \$2 I spent.

So devs, if you are reading this and wish to improve this game, please at least look at Stepmania for inspiration because as crappy as this game is it wouldn't be bad to have a REAL rhythm game on steam. Developer abandoned the project. Why are web series on video games so much better than movies?

I wish this was a full length movie, because I enjoyed this way more than an average video game movie.

On top of that, it gives an amazing insight to the Mortal Kombat universe.

10/10

And its free so why not. Hello,

Very nice game!

On the passenger mode, we've noticed some bugs (e.g. for tramway the doors are not opening and it is impossible to get in). My son is also asking me every day what is outside the station :). If possible, we want to suggest this new feature: the possibility to ascend on stairs and walk outside the station.

Thank you,

Yann & Vali. So the dev for this game, Orion_, he put the games in a greenlight bundle on Groupees, which was quite successful, got him enough greenlight votes to get the game on steam. Then he viciously turned on his fanbase, refusing to give keys, calling them horrible names, and accusing them of being greedy. He deleted any threads about keys, and kept up these antics, but eventually gave in and gave keys to customers through Groupees. However in his now deleted post he was once again vicious about it. More info can be found here:

. This COULD be a nice game, but what ruins it

- * tedious UI, it just plain bad console UI, even for a console
- * Story is designed for repetitive gameplay, with a level up system which makes a fight either very simple or too hard.
- * Story tries to be engaging, but fails with simple "character images + text" kind of display

Unless you are a hardcore fan of match-3, stay away. If you like the Crooked Man, you'll definitely love this one too. Has a great storyline, a few good scares, original puzzles, and a huuuuge map. 9/10, absolutely worth paying for.
